**Preliminary registrations:** <http://tinyurl.com/jdv5ynv>

Registration will be open in March.

**Logistics:** Transfer will not be organized. Tips and advices will be given prior to the event.

---

Quality of the school project work is an essential element for an educational institution aiming to reach desired and planned impact in the frame of international cooperation. In order to achieve that educational institutions should be guided and equipped with adequate knowledge and skills to provide and run a successful small or large scale school strategic partnership and mobility project for learners and staff.

Slovene NSS eTwinning and NA Erasmus+ joint event will focus on boosting the quality of European international school projects and project planning in eTwinning and Erasmus+ projects. Moreover, particular attention will be given to the support of KA1 and KA2 Erasmus+ projects with eTwinning.

Join us and learn about: eTwinning platform, professional development opportunities through eTwinning, opportunities within Erasmus+ actions, solutions of support and upgrade of Erasmus+ projects (KA1 and KA2) with the help of eTwinning, best practice examples, quality project management and project planning.

eTwinning PDW will be combined with transnational cooperation activity Erasmus+ (TCA) and will thus be an opportunity to find potential project partners for your future international projects as well.
